

Brand Guidelines

Forward

Why Brand Guidelines?

A strong and consistent visual identity projects a distinctive image and creates a lasting impression.

The way we present ourselves visually in all corporate materials, letterheads, business cards, uniforms, vehicles and advertisements contributes to building a unique identity for the company.

Consistency in following guidelines is important in fostering awareness of AGnVET, creating a common shared image across all our markets and enhancing our reputation as a strong and unified professional company.

These guidelines ensure that AGnVET's logo, including its colours and typefaces, will be used in a distinctive and uniform fashion throughout our branch network.

While our products, our people, our actions and our results will shape the image and personality of AGnVET, consistent visual standards will reinforce the unity of our business.

A strong visual identity projects a consistent and memorable image in all of our markets and with all of our stakeholders.

We all share the responsibility for implementing these standards which are yet another building block for AGnVET.

AGnVET Logo

Primary logo

Our Primary logo is the **ONLY** version and should be used in **ALL** instances.

Various .jpg files of the logo are available here

Docs Marketing AVS/Logos/

AGnVET Logo

Primary logo

The primary logo is the only version to be used in all instances.

Mono logos - black

The mono version in solid black should only be used when full colour representation is not available.

Greyscale logos

The greyscale version should only be used when full colour or solid black representation is not available

Minimum size

Primary logos

25mm is the safest minimum size.

Primary Logo

AGnVET Logo ~ *Social media icon*

The icon is to be used where an abbreviated version of logo is required on social media platforms and in web applications.

Social Media Icon

Business Logos

Primary Business logos

Our business logos are based around the design on the *AGnVET* Primary Logo available in stacked and long versions.

Mono logo - black

The mono version in solid black should only be used when full colour representation is not available.

Greyscale logo

The greyscale version should only be used when full colour or solid black representation is not available

Minimum size

Primary business logos

25mm (width) is the safest minimum size.

Secondary long logos

3mm (height) is the safest minimum size.

25mm

3mm

Logo Positioning

Positioning

Top and bottom right are our preferred logo placement options for all logos.

However, there may be exceptions to the rule where the logo position is determined by where it is being used.

Logos should always adhere to clear space guidance. Refer page 8 for logo spacing guidelines.

Positioning

Logo Spacing

Clear space rules

Blue indicates Clear Space. The blue area must be kept free of other elements.

The minimum required Clear Space is defined by the measurement 'y'.

Primary Logo

Additional logos ~ *Services and Businesses*

Various logos representing the Services are also affiliated with the AGnVET logo. Available in colour and mono versions.

AGpack Farm Solutions

AGpack Broadacre Solutions

AGpack Horticulture Solutions

AGpack Livestock Solutions

AGpack Field Data Solutions

Logo Backgrounds

Logos on backgrounds

The coloured logo **MUST** always appear on a white background.

A reverse white logo can be used in approved instances where any of the AGnVET colours are used as backgrounds.

The reverse white logo can also be used in approved instances where an image is used as a background.

If a coloured logo is to be used the logo should be displayed in a white box which has the minimum clear space as specified.

In all instances where the company logo is used on supplier collateral, the design **MUST** be approved by the Marketing Department.

Primary Stacked Logo

Logo Usage

Incorrect use

Correct use of the logo strengthens our brand, builds integrity and increases the impact of the AGnVET visual identity system.

These examples demonstrate **incorrect** uses of our logo.

DO NOT place on an angle

DO NOT stretch or distort

DO NOT crop

Ifesta que nors mis sendium
testem Romnotatum publiquaHos,
ublinguliem Patum et; iam is

DO NOT place text within
clear space boundaries

DO NOT place on non-approved
background colours

Colour Palette

Our colours reflect the landscape and communities in which we work and support.

The consistent use of our primary colours in all applications ensures a strong and unified company identity.

All body copy and artwork layouts **MUST** be approved via Marketing Department.

If there is any questions with artwork size, file format or any other artwork needs, please contact

In-store Digital Signage

An In-Store Digital Signage network is installed across all branches to advertise events, promotions and products.

Monitors are to be installed in a highly visible customer area that is appropriate to the retail footprint of each branch.

Sizes

- Large format 49" display monitor with floor stand.
- Small format 22" display monitor with counter stand.

All media **MUST** be supplied in a portrait orientation only at 1080 x 1920 pixels and 9:16 aspect ratio.

Media to be either static images or video.

Video length - 20 seconds maximum.

The use of sound is not possible throughout the network.

Format	File Type	Size	Orientation	Aspect Ratio	Time
Image	JPG	1080 x 1920 px	Portrait		
Image	PNG	1080 x 1920 px	Portrait		
Image	GIF	1080 x 1920 px	Portrait		
Video*	MP4	1080 x 1920 px	Portrait	9:16	20 sec**
Video	WMV	1080 x 1920 px	Portrait	9:16	20 sec
Video	MOV	1080 x 1920 px	Portrait	9:16	20 sec

*Video specifications: (Quality 23), 25-50 FPS - MP4 (H.264).

** We recommend keeping video length to a maximum of 20 seconds.

Large format 49"
display monitor with floor stand.

Small format 22"
display monitor
with counter stand

Merchandise

The *AGnVET* logo must be used correctly on all merchandise.

The *AGnVET* logo can be used in conjunction with Supporter and Partner logos. Design **MUST** be approved by the Marketing Department before manufacture.

To request marketing merchandise, enter a 'Stock Transfer' request via Pronto.

All merchandise items are shown in Farmgate.

Vehicle branding - AGnVET Utes

It's important that the *AGnVET* logo is used correctly on all our vehicles. White vehicles offer best visibility and also allow for appropriate use of the *AGnVET* logo.

Logo positioning

For dual cab vehicles,

- AGnVET logo - front driver and front passenger doors - placed just above the moulding.
- AGnVET logo - rear tail panel where there is a suitable surface depending on other vehicle decals.

Logos are available in the **form of decals** from fleet@agnvet.com.au. These are issued to approved fleet dealerships, and are often applied to vehicles prior to delivery to *AGnVET*.

Fleet signage should not be removed except when the organisation is disposing of vehicles.

All branded vehicles are to be kept in a clean and professional condition.

Sizes

- AGnVET logo (front door) - Length 650mm x Height 142mm
- AGnVET logo (tailgate) - Length 260mm x Height 50mm - *same size sticker to be used on all vehicles*

Uniform branding

A consistent and unified branding on all uniforms ensures a strong unified message to our clients and the community.

It's important that the *AGnVET* logo is used correctly on all uniform items.

- Work attire - dark blue fabric with full colour logo
- Dress attire - blue and white check fabric with colour logo
- Safety Attire - hi vis as required by WHS with colour logo

All uniform orders are to be placed through the uniform portal app on Farmgate.

Uniforms are NOT to be co-branded with Supplier / Partner logos
